- 2024 badges are printed and ready. Any member that has a 2024 or beyond AMA expiration can renew and receive their badge immediately.
- IMAC received a 1200' altitude waiver / NOTAM for Fri. Sat. and Sun. The AMA (Holly Silvers) stated that their instructions for requesting altitude waivers hasn't changed. She said CD's can request higher than the map's Lower Limit Value of 700' and it's "possible" that the FAA may not verify the map altitude and grant it (which they did for this event).
