1020 SE 110th Street
Ocala FL 34481

Sanctioned Club #2465

BOD April Meeting at OFMC
Jesse, Dom, Paul, Pete, Nick

March 30, 2023 5:00 pm

Jesse,

- AMA sanction for 12 O'clock High is approved for Sept. 15 - 17. Pilot's Lunch on Saturday and Steak Dinner on Sunday.
- The dead tree near the mower building was safely removed by a contractor for \$800
- The Greenways gave us a verbal warning for flying over the Trash/Recycle center. Flying past boundaries has been mentioned at several of the past meetings so it's become a problem that the club must take action to prevent. The field rules will be updated to include: Grounding for the rest of the day for the 1st offense and a 30 day suspension for the 2nd offense. It's very helpful to use a spotter when flying large scale aircraft. We don't want to lose the field over this.

Peter

- The 2023 Pattern Event will be on April 15 and 16. The heli / glider field is closed during the event.

Nick

- Our Sunbiz reporting fees have been paid and our filing is updated with the 2023 Board members.

Dom

- The road repair quote provided by the original road contractor was \$88,000.00. Drive slowly.

Paul

- The AMA is receiving 700' and 1200' waivers for sanctioned events held at clubs in unrestricted airspace. Your event CD will let you know the altitude limits for you at the pilot briefings.
